

Monkeys

Verse 1

Yeah! You're alive and that's so good
You're a miracle to me and to the world
They, they have said that i would fail
But i didn't care - i made it anyway

Pre-Chorus

But there is so much more to you than just being alive
My little shaggy boy - we'll bring them back to life

Chorus

So many days and weeks that I have hoped and prayed
In the end I didn't think that we could stop it
But now the key is lying right there in my hand
And I'll lock it tight and safe and i won't drop it

Verse 2

I hear them coming closer
My footsteps are getting louder
We don't have time we have to leave now
We must escape them my little friend
Or all is for nothing
We must protect and hide our treasure

Pre-Chorus

But there is so much more to you than just being alive
My little shaggy boy - we'll bring them back to life

Chorus

So many days and weeks that I have hoped and prayed
In the end I didn't think that we could stop it
But now the key is lying right there in my hand
And I'll lock it tight and safe and i won't drop it
